Ladies and gentlemen, dear colleagues,

It is our pleasure to invite you to the second international endomicroscopy meeting. Endomicroscopy was born in 2004. Since then, endomicroscopy has led to remarkable achievements in the field of gastrointestinal endoscopy. Endomicroscopy allows the diagnosis of different kinds of diseases during endoscopy due to the endomicroscopic analysis of the intestinal mucosa. However, endomicroscopy does not simply replace or imitate histology. Physiology and pathophysiology of the intestinal mucosa can also be observed real time in humans during the endoscopy process.

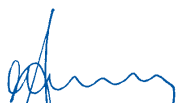

The second international endomicroscopy meeting will mirror these achievements and has two goals. The current and upcoming knowledge of confocal laser endomicroscopy will be presented by internationally highly recognised speakers. The value of endomicroscopy will be discussed for different diseases and the place of endomicroscopy within the clinical algorithm will be exactly highlighted. Secondly, high-definition live transmissions from the Johannes Gutenberg University of Mainz will show techniques, indications and interpretations of endomicroscopy. Intense discussion and interactions between the audience and the experts will be possible. Furthermore, a round table will openly discuss the past, present and future of endomicroscopy. Thus, there are plenty of reasons to join the second international endomicroscopy meeting. We would be delighted if you accepted our invitation.

We are looking forward to seeing you in Mainz.

Best regards,

Prof. Dr. Ralf Kiesslich

09.30–09.45	Welcome	P. R. Galle
Session I: Moderation: P. R. Galle · C. Ell · M. Canto		
09.45–10.00	Technique of endomicroscopy and how to achieve adequate training	M. Götz
10.00–10.15	Endomicroscopy and histology side by side: Upper and lower GI tract	S. Sanduleanu A. P. de Bruine
10.15–11.15	Live demonstration I	
11.15–11.40	GERD – new imaging modalities: From targeted diagnosis to targeted therapy	H. Neuhaus
11.40–12.05	Endomicroscopy in Barrett's esophagus: Fewer biopsies with better outcome	M. Canto
12.05–13.00	Lunch	
Session II: Moderation: C. Crosta · M. F. Neurath · M. Jung		
13.00–14.00	Live demonstration II	
14.00–14.25	How to diagnose early gastric cancer: Implementation of endomicroscopy within the endoscopist's armamentarium	L. Ho
14.25–14.50	Celiac disease: An underestimated disease with new diagnostic possibilities	R. Leong
14.50–15.20	Coffee break	
Session III: Moderation: R. Kiesslich · O. Pech · J. Sung		
15.20–15.40	Molecular imaging: Future dream or available soon?	M. F. Neurath
15.40–16.40	Live demonstration III	
16.40–17.00	Conclusions	R. Kiesslich

Friday · 11 September 2009

08.50–09.00	Welcome	
Session IV: Moderation: H. Neuhaus · F. Hagenmüller · R. Bisschops		
09.00–09.15	Endomicroscopy and histology side by side: lower GI tract	R. Bisschops X. Sagaert
09.15–09.30	Best of live demonstrations	
09.30–09.50	Free paper presentations	
09:50–10.10	Serrated adenomas – what the endoscopist needs to know	M. Vieth
10.10–10.35	Best surveillance strategy in patients with long-lasting ulcerative colitis	R. Kiesslich
10.35–11.00	Screening of colorectal cancer – how to implement new imaging modalities	J. Sung
11.00–11.30	Coffee break	
Session V: Moderation: A. Watson · A. Zambelli		
11.30–11.45	Stratification of gastric cancer based on endomicroscopy	Y. Li
11.45–12.00	Gaps and bacteria – new in vivo criteria defining patients with inflammatory bowel diseases	D. Moussata
12.00–12.15	Graft versus host disease – a difficult diagnosis – now visible in vivo	C. Bojarski
12.15–12.30	Endomicroscopy in pouch patients: New diagnostic standard with endomicroscopy?	C. Trovato
12.30–12.45	Endomicroscopy for liver diseases – new horizon or dead end?	M. Götz
Session VI: Moderation: N. Marcon		
12.45–13.45	Round table discussion: Perspectives of endomicroscopy	
	Classification – how to define diseases in vivo?	H.-U. Marschall
	Advanced endoscopic imaging techniques - alternatives to endomicroscopy	E. Dekker
	Areas of interest – where should we focus our research?	G. Falk
	Future of endomicroscopy – where are we heading?	R. Kiesslich
	Final conclusions	N. Marcon
13.45–14.00	Closing remarks	R. Kiesslich
